

Optional training Sessions

Monday April 1 to Wednesday April 3 (to be decided)

Optional (parallel) training sessions

| | | | |
|--------|--|-------|----------|
| DS-102 | DOSISERV™ Advanced Training (Tuesday 2) | 1 day | Euro 500 |
| GP-201 | Fundamentals in Gamma Spectroscopy | 1 day | Euro 500 |
| SU-470 | Genie 2000 Basic Operations | 1 day | Euro 500 |
| SU-472 | Genie 2000 Algorithms Cascade Summing Correction Quality Assurance Uncertainties IUE | 1 day | Euro 500 |
| SU-474 | Basic ISOCS Measurements | 1 day | Euro 500 |
| SU-476 | Advanced ISOCS Measurements | 1 day | Euro 500 |
| SU-570 | Apex-Alpha/Beta Operations | 1 day | Euro 500 |
| SU-642 | Apex-Alpha Spectroscopy Advanced Topics | 1 day | Euro 500 |
| HW-001 | HPGe detector overview and DSP MCA settings | ½ day | Euro 400 |

2-days combination: Euro 850

Preliminary Meeting Agenda

Wednesday April 3 to Friday 5 April (lunch-to-lunch)

Welcome Lunch

All lunches, Welcome dinner (April 3), Conference dinner (April 4) and coffee/snacks included.

Start of Program

Registration & Welcome

Mirion/Canberra merge, organization and news. What does it mean for me and my work.

New web site: Webinars, videos, literature etc.

New Products Development Overview

Products Portfolio Changes

Invited Speaker

Patrick Konneus, Studsvik Consulting.

“Experience of waste characterization and quantification in decommissioning projects”.

Demo room sessions – Hands on

Invited Speakers (To Be Decided)

Topics, discussions and product presentations

Characterization, Waste Measurements & Decommissioning

NDA (Non-Destructive Assay) technical presentation

IUE - Probabilistic ISOCS Uncertainty Estimator for gamma-spectroscopy measurements

Super ISOCS – Enhanced tool for in-situ measurements

iPIX™ - Ultra Portable Gamma-Ray Imaging System with spectroscopic features using CdZTe

ASGS - Advanced Segmented Gamma Scanner

Measurement & Expertise - Your partner for more efficient and cost-effective nuclear measurements

Spectroscopy

Aegis – Latest transportable HPGe Spectrometer

CSM and Data Analyst™ – New approach in Continuous Spectroscopic Monitoring

Security and Search

SPIR family – Advanced instruments for real time radiological Mapping, Visualization and Data Storage

Handheld platforms

Colibri/CSP product family

RDS-31™ Applications and Options

Contamination & Clearance

New Products and Technologies

C&C software platform

Avior-2. New portable survey meter with hand- and foot probes

6LB - Automatic Low Background Alpha/Beta Counting System

Dosimetry platforms

Instadose services

Electronic dosimetry - DMC Family

MBD2™ Battlefield Dosimeter

Software tools

Workshop Sessions:

Supervision System for Contamination Monitors

SPIR-Ace with Genie2000 and ISOCS

Latest in Gamma Spectroscopy Software

Update HPGe technology, cooling and market feedback

Round-table discussions

Customers presentations/experiences
